532-1715 fax

If funding is available through the ADAMHS board, all people seeking treatment who are not covered by insurance (private or public) will be referred to the board for the possibility of indigent funding to receive services at no cost. Eligibility for indigent funding is determined through the ADAMHS board.

If you do not qualify for indigent funding, and your financial circumstances are such that paying the full fee is not possible, you may be eligible for a Sliding Fee for services, which will allow payment at less than the full fee rate.

If this approach seems necessary for you, please discuss it with our Admissions staff.

For all services, except for substance abuse groups, you will be given one grace appointment of non-payment. If payment is not made at the next scheduled appointment, then no additional appointments will be made. Clients in substance abuse groups will be required to pay prior to each session in order to participate in the group.
